### **Did you know that 1 in 4 alcoholics has a problem with gambling?**

The high cross addiction rate makes it important that providers of chemical dependency services be able to assess, refer or treat problem gamblers. These statistics were provided by Gamblers Recovery Program. And How About some G.A. Meetings? (800) 521-8448

### **A Newsworthy Note on Bob:**

He has realized his dream of returning to his Hawlapai Reservation after nineteen years of continuous sobriety. He has been afforded a new three bedroom home and plans to spend his remaining lifer here on this earth with his tribal members and remaining family in Peach Springs, Arizona. Bob Sullivan still has more recovery from his massive stroke in March 1995 and is confined to a wheelchair most of the time, but through rehabilitation therapy and a special shoe and brace does now walk some with the aid of a walker. He continues to grow spiritually, emotionally and mentally and plans to marry in the near future.

*I hope you will keep Bob in your prayers for his continued health and happiness.  
Sincerely Jean G.*
